

SMARTONE SOLAR

Brand:

Product Code: SMARTONE SOLAR

Call for Price: 07 3277 0237

Description

The SmartOne Solar satellite tracking unit is a rugged, battery powered device designed for remote asset tracking and monitoring. Used with Tracertrak, SmartOne Solar units provide a low cost solution to track remote assets and monitor the status of remote operations.

Complete and ready-to-go, the SmartOne Solar is solar powered and uses a non-replaceable built-in rechargeable NiMH batteries – meaning installation is quick and easy.
