Description

Cel-fi GO Repeater has been tested, authorized and approved by Telstra for use on the Telstra Mobile Network

We recommend this pack where you wish to place your antenna on the roof or mirror to gain the maximum coverage but require clearance that a smaller length antenna will provide you.

The Cel-Fi GO for Telstra Smart Repeater is the ideal product to boost and distribute a 3G/4G mobile signal within your 4WD or Truck. Supporting voice and mobile internet for multiple mobile devices, dropped calls and slow internet are a thing of the past.

FEATURES:

- Designed for 4WD & Truck applications
- 100dB of system gain (latest software update required using WAVE App)
- Includes external and internal antennas
- Locked to Telstra's Mobile Network
- Carrier approved
- Band Selection Button
