

GME TX3520S DSP Compact UHF CB radio, Scansuite

Brand: GME

Product Code: tx3520s

Price: \$549.00

Description

UHF radio powered by digital signal processing for Pure Sound

The TX3520S displays the same rugged construction, comprehensive feature set and reliability as the TX3510S but with a remote head for vehicles with limited cabin space. Now equipped with [ScanSuite™](#), the TX3520S also enables uninterrupted communications with a group of like radios.

The shallow remote head allows access to the controls and a view of the LCD with the base unit mounted out of sight. The microphone can attach to either the front of the remote head or rear of the base unit for obstruction-free use ensuring years of reliable communications.

Australian made GME radios now have a 5 year warranty.
