

GME TX4500S DSP DIN size UHF radio with ScanSuite

Brand: GME
Product Code: tx4500s

Price: \$549.00

Description

UHF radio powered by digital signal processing for Pure Sound

The TX4500S is a full-DIN sized UHF CB radio, ideal for installations in vehicles supplied with the DIN standard mounting slot. Supplied with a DIN mounting kit, the TX4500's compact-depth design allows for seamless installation in confined spaces. The combination of a die-cast metal chassis, rugged professional microphone, front-facing speaker, large LCD screen and rotary controls make the TX4500S the radio of choice for heavy vehicles and agricultural machinery.

Australian made GME radios have a 5 year warranty.
